

ECONOMICS

SYLLABUS FOR HIGHER SECONDARY COURSE

Rationale:

Economics is one of the social sciences which has a lot of influence on each individual yet but received little attention in the school curriculum in India. As economic life and the economy go through changes, the need to ground education in children's own experience becomes essential. While doing so, it is imperative to provide them with opportunities to acquire analytical skills to observe and understand the economic realities. Bringing in economics as an abstract knowledge in the early stages of school education would promote rote learning of the subject.

At the higher secondary stage, learners are in a position to understand abstract ideas, exercise the power of thinking and to develop their own perception. It is at this stage that learners are exposed to the rigour of the discipline of economics in a systematic way.

Economics courses are being introduced in such a way that in the initial stage, the learners are introduced to the economic realities that the nation is facing today along with some basic statistical tools to understand these broader economic realities. In the later stage, the learners are to be introduced to economics as a theory of abstraction.

The economics courses also contain many projects and activities. These will provide opportunities for the learners to explore various economic issues both from their day-to-day life and also issues which are broader and invisible in nature. The academic skills that they acquire in these courses would help to develop the projects and activities. The syllabus is also expected to provide opportunities to use information and communication technologies to facilitate their learning process.

Objectives :

- ❖ Understanding of some basic economic concepts and developing economic reasoning which the learners can apply in their day-to-day life as citizens, workers and consumers .
- ❖ Realisation of learners' role in nation building and sensitise them to the economic issues that the nation is facing today .
- ❖ To equip learners with basic tools of economics and statistics to analyse economic issues. This is pertinent for even those who may not pursue this course beyond the higher secondary stage.
- ❖ To develop an understanding that there can be more than one view on any economic issue and to develop the skills to argue logically.

The details of the syllabus of economics for the two years HS course are as follows:

H.S. First year : (i) Introductory Microeconomics.
(ii) Statistics for Economics.

H.S. Second year : (i) Introductory Macroeconomics.
(ii) Indian Economic Development.

ECONOMICS**SYLLABUS FOR HIGHER SECONDARY FIRST YEAR COURSE****One Paper****Time : Three hours****Marks : 100****Unitwise Distribution of Marks & Periods :**

| Unit | Topics | Marks | Periods |
|---|---|--------------|----------------|
| Part-A Introductory Microeconomics : | | | |
| Unit-I | Introduction | 04 | 08 |
| Unit-II | Consumers Equilibrium and Demand | 13 | 25 |
| Unit-III | Producer Behaviour and Supply | 15 | 30 |
| Unit-IV | Forms of Market and Price Determination | 10 | 20 |
| Unit -V | Simple Applications of Tools of Demand & Supply | 08 | 12 |
| Part-B Statics For Economics | | | |
| Unit-VI | Introduction | 05 | 08 |
| Unit-VII | Collection, Organization & Presentation of Data | 15 | 22 |
| Unit-VIII | Statistical Tools & Interpretation | 30 | 55 |
| Total : | | 100 | 180 |

Unitwise Distribution of Course Contents:**Part A : Introductory Microeconomics**

This course introduces the learner to economics as a science of abstraction and reasoning. It introduces some basic concepts and tools to understand economic issues of an individual or a firm and how decisions are taken in variety of markets. It also intends to provide exposure to the learners on how choices are made and how a variety of statistical tools are used to optimally allocate the resources.

Unit-I : Introduction : Marks : 04

What is microeconomics?
Central Problems of an economy, Production possibility curve and opportunity cost.

Unit-II : Consumers Equilibrium and Demand : Marks : 13

Consumer's Equilibrium : Meaning and attainment of equilibrium through Utility Approach : One and two commodity cases.
Demand : Concept of demand, Determination of demand, Demand schedule, Demand curve, Market demand, Movement along and shifts in demand curve, Price elasticity of demand, Measurement of price elasticity of demand—percentage, Total expenditure and geometric methods.

Unit-III : Producer Behaviour and Supply : Marks : 15

Production function : Returns to factor and returns to scale.
Supply : Market supply, Determinants of supply, Supply schedule, Supply curve, Movement

along and shifts in supply curve, Price elasticity of supply, Measurement of price elasticity of supply- percentage and geometric methods.

Cost and Revenue : Concept of cost, Short run cost curve (fixed and variable cost, total, average and marginal cost); concept of revenue – total, average and marginal revenue and their relationship, Producer's equilibrium – with the help of MC and MR.

Unit-IV : Forms of Market and Price Determination : Marks : 10

Forms of market – perfect competition, monopoly, monopolistic competition – their meaning and features.

Price determination under perfect competition – equilibrium price, effects of shifts in demand and supply.

Unit-V : Simple applications of Tools of Demand and Supply Curves : Marks : 08

Change in cost conditions and its impact on the firm's and market supply.

Geometric method to determine the elasticity of supply.

Effects of taxation : Per unit tax, Lump Sum Tax, Price ceiling and price floor.

Part B : Statistics for Economics

In this course, the learners are expected to acquire skills in collection, organisation of quantitative and qualitative information pertaining to various, but simple, economic aspects systematically. It also intends to provide some basic statistical tools to analyse and interpret any economic information and draw appropriate inferences. In this process, the learners are also expected to understand the behaviour of various economic data.

Unit-VI : Introduction : Marks : 05

Definition, nature and scope of economics.

Meaning and scope of statistics, importance of statistics in Economics.

Unit-VII : Collection and Organisation of Data : Marks : 15

Collection of data : Sources of data – Primary and Secondary, Methods of collecting data. Some important sources of secondary data : Census of India and National Sample Survey Organisation.

Organisation of data : Meaning and types of variables; frequency distribution.

Presentation of data : Tabular and diagrammatic presentation of data :

(i) Geometric forms (bar diagrams and pie diagrams)

(ii) Frequency diagrams (histogram, polygon and ogive) and

(iii) Arithmetic line – Graphs (time series graph)

Unit-VIII : Statistical Tools and Interpretation : Marks : 30

Measures of Central Tendency – mean (simple and weighted), median and mode.

Measures of Dispersion – absolute dispersion (range, quartile deviation, mean deviation and standard deviation);

Relative dispersion (co-efficient of quartile deviation, co-efficient of mean deviation and co-efficient of variation); Lorenz Curve : Meaning and its application.

Correlation – meaning, scatter diagram, Measures of correlation – Karl Pearson’s Method (Two variables ungrouped data) and Spearman’s rank correlation.

Introduction to Index Numbers : meaning, types – wholesale price index, consumer price index of industrial production, uses of index numbers; Inflation and index numbers (For all the numerical problems and solutions, the appropriate economic interpretation may be attempted. This means that students need to solve the problems and provide interpretations for the results derived)

- Prescribed textbooks :**
1. Microeconomics, Published by NCERT
 2. Statistics for Economics, Published by NCERT

 1. ব্যক্তিবাদী অর্থবিজ্ঞান পৰিচয়, Published by AHSEC
 2. অর্থনীতিৰ বাবে পৰিসংখ্যা, Published by AHSEC

[**Note :** The textbooks are available in Bangla Medium also]

ECONOMICS

SYLLABUS FOR HIGHER SECONDARY COURSE

Rationale :

Economics is one of the social sciences which has a lot of influence on every human being. Yet it received little attention in the school curriculum in India. As economic life and the economy go through changes, the need to ground education in children's own experience becomes essential. While doing so, it is imperative to provide them with opportunities to acquire analytical skills to observe and understand the economic realities.

Bringing economics as an abstract knowledge in the early stages of school education would promote rote learning of the subject.

At the higher secondary stage, learners are in a position to understand abstract ideas, exercise the power of thinking and to develop their own perception. It is at this stage, the learners are exposed to the rigour of the discipline of economics in a systematic way.

Economics courses are being introduced in such a way that, in the initial stage, the learners are introduced to the economic realities that the nation is facing today, along with some basic statistical tools to understand these broader economic realities. In the later stage, the learners are to be introduced to economics as a theory of abstraction.

The economics courses also contain many projects and activities. These will provide opportunities for the learners to explore various economic issues both from their day-to-day life and also issues which are broader and invisible in nature. The academic skills that they acquire in these courses would help to develop the projects and activities. The syllabus is also expected to provide opportunities to use information and communication technologies to facilitate their learning process.

Objectives :

- Understanding of some basic economic concepts and developing economic reasoning which the learners can apply in their day-to-day life as citizens, workers and consumers.
- Realisation of learners' role in nation building and sensitise them to the economic issues that the nation is facing today.
- To equip learners with basic tools of economics and statistics to analyse economic issues. This is pertinent for even those who may not pursue this course beyond the higher secondary stage.
- To develop an understanding that there can be more than one view on any economic issue and to develop the skills to argue logically with reasoning.

The economics subject should be taught in two years at the higher secondary stage. The details of course for each semester are as follows :

ECONOMICS

SYLLABUS FOR HIGHER SECONDARY FINAL YEAR COURSE

One Paper

Three Hours

Marks 100 [80 (theory) + 20 (project)]

Unitwise Distribution of Marks and Periods :

Part A : Introductory Macroeconomics

| Unit No. | Title | Marks | Periods |
|-----------------|---|--------------|----------------|
| 1 | National Income and Related Aggregates | 10 | 24 |
| 2 | Determination of Income and Employment | 12 | 25 |
| 3 | Money and Banking | 06 | 12 |
| 4 | Government Budget and the Economy | 06 | 12 |
| 5 | Balance of payment | 06 | 12 |
| | Total | 40 | 85 |

Part B : Indian Economic Development

| Unit No. | Title | Marks | Periods |
|-----------------|--|--------------|----------------|
| 6 | Development Experience (1947-1990) | 07 | 13 |
| 7 | Economic Reforms since 1991 | 05 | 10 |
| 8 | Current Challenges facing Indian Economy | 22 | 55 |
| 9 | Development Experience of India: A comparison with neighbours | 06 | 07 |
| | Total | 40 | 85 |

Part C : Project Work in Economics

20

20

Part A: Introductory Macroeconomics

Unit :1 National Income and Related Aggregates

Marks 10

Periods 24

- What is Macroeconomics?
- Basic concepts in Macroeconomics : consumption goods, capital goods, final goods, intermediate goods; stocks and flows; gross investment and depreciation.

- Circular flow of income (two sector model) Methods of calculating National Income- Value added or Product method, Expenditure Method, Income Method.
- Aggregates related to National Income:
- Gross National Product (GNP), Net National Product (NNP), Gross Domestic Product (GDP) and Net Domestic Product (NLDP) - at market price, at factor cost; Real and Nominal GDP, Personal Income, Private Income, Personal Disposable Income, national Disposable Income (Gross & Net).
- Simple mathematical applications of national Income concepts
- GDP and Welfare.

Unit 2: Determination of income and Employment

Marks 12

Periods 25

- Aggregate demand and its components.
- Aggregate Supply and its components.
- Effective Demand.
- Propensity to consume and propensity to save (average and Marginal).
- Short-run equilibrium output; investment multiplier and its mechanism.
- Meaning of full employment and involuntary unemployment.
- Problems of excess demand and deficient demand; measures to correct them- change in government spending, taxes and money supply.
- Determination of Income and Employment (2 sector model).

Unit 3: Money and Banking

Marks 6

Periods 12

- Money - Meaning, evolution and functions
- Commercial Banks- Meaning and functions.
- Credit creation by the commercial banks.
- Central bank and its functions (example of the Reserve Bank of India): Bank of issue, Govt. bank, Banker's bank. Control of Credit through Bank Rate, CRR, SLR, Repo

Rate and reverse Repo Rate, Open Market Operations, Margin requirement.

Unit 4: Government Budget and the Economy **Marks 6** **Periods 12**

- Government budget- meaning, objectives and components.
- Classification of receipts revenue receipts and capital receipts.
- Classification of expenditure - revenue expenditure and capital expenditure, Plan and Non-plan expenditure, Developmental and Non-Developmental expenditure.
- Measures of Government deficit- Revenue deficit, Fiscal deficit, Primary deficit their meaning.
- Balanced Budget, Surplus Budget and Deficit Budget meaning

Unit 5: Balance of Payments **Marks 6** **Periods 12**

- Balance of Payments account- meaning and components, balance of payments deficit- meaning
- Foreign exchange -meaning of fixed and flexible rates and managed floating.
- Spot and Forward exchange rate (concept only).
- Determination of exchange rate in free market.
- Foreign Exchange Market (concept only)

Part B: Indian Economic Development

Unit 6: Development Experience (1947-1990) **Marks 7** **Periods 13**

- A brief introduction of the states of Indian economy on the eve of the independence.
- Indian economic system and common goals of Five Years Plans.
- Main features, problems and policies of agriculture (institutional aspects and new agricultural strategy)
- Industry (1PR 1956; SSI- role & importance) and foreign trade.

Unit 7: Economic Reforms since 1991 **Marks 5** **Periods 10**

- Features and appraisals of liberalization, globalisation and privatisation (LPG Policy)

The **objectives** of the project work are to enable learners to:

- Probe deeper into theoretical concepts learnt in classes XI and XII
- Analyse and evaluate real world economic scenarios using theoretical constructs and arguments
- Demonstrate the learning of economic theory
- Follow up aspects of economics in which learners have interest.
- Develop the communication skills to argue logically

The **expectations** of the project work are that:

- Learners will complete only ONE project in each academic session
- Project should be of 3500- 4000 words (excluding diagrams & graphs), preferably hand- written
- It will be an independent, self -directed piece of study

Role of the teacher:

The teacher plays a critical role in developing thinking skills of learners. A teacher should :

- Help each learner select the topic based on recently published extracts from the news, media, government policies, RBI bulletin, NITI Aayog reports, IMF/World Bank reports etc., after detailed discussions and deliberations of the topic
- Play the role of a Facilitator and Supervisor to monitor the project work of the learner through periodic discussions
- Guide the research work in terms of sources for the relevant data
- Educate learner about plagiarism and the importance of quoting the source of the information to ensure authenticity of research work
- Prepare the learner for the presentation of the project work
- Arrange a presentation of the project file

Scope of the project:

- Learners may work upon the following lines as suggested flow chart:
- Choose a title/ topic
- Collection of the research material/ data
- Organization of material/ data
- Present material/ data
- Analysing the material/ data for conclusion
- Draw the relevant conclusion
- Presentation of the Project Work

Expected Checklist:

- Introduction of topic/title
- Identifying the causes, consequences and/or remedies
- Various stakeholders and effect on each of them
- Advantages and disadvantages of situations or issues identified
- Short-term and long-term implications of economic strategies suggested in the course of research
- Validity, reliability, appropriateness and relevance of data used for research work and Presentation in the project file
- Presentation and writing that is succinct and coherent in project file
- Citation of the materials referred to, in the file in footnotes, resources section, bibliography etc.

Mode of presentation/ submission of the Project:

At the end of the stipulated term, each learner will present the research work in the Project File to the External and Internal examiner. The questions should be asked from the Research Work/ Project File of the learner. The internal examiner should ensure that the study submitted by the learner is his/her own original work. In case of any doubt, authenticity should be checked and verified.

Marking Scheme :

| Sl. No. | Heading | Marks Allotted |
|---------|-------------------------------|----------------|
| 1 | Relevance of the topic | 3 |
| 2 | Knowledge Content/Research | 6 |
| 3 | Presentation Technique | 3 |
| 4 | Viva –Voce | 8 |

Suggestive list of projects

| Class XII | |
|--|---|
| <ul style="list-style-type: none"> • Micro and small Scale Industries | <ul style="list-style-type: none"> • Food Supply Channel in India |
| <ul style="list-style-type: none"> • Contemporary Employment situation in India | <ul style="list-style-type: none"> • Disinvestment policy of the government |
| <ul style="list-style-type: none"> • Goods and Service Tax Act and its impact on GDP | <ul style="list-style-type: none"> • Health Expenditure (of any state) |
| <ul style="list-style-type: none"> • Human Development Index | <ul style="list-style-type: none"> • Inclusive Growth Strategy |
| <ul style="list-style-type: none"> • Self- Help Group | <ul style="list-style-type: none"> • Trends in Credit availability in India |
| <ul style="list-style-type: none"> • Functions of Commercial Bank and Central Bank | <ul style="list-style-type: none"> • Environmental challenges facing India (eg. Global warming)(may be a problem pertaining to the locality) |
| <ul style="list-style-type: none"> • Employment and other related issues in India | <ul style="list-style-type: none"> • Poverty in India |
| <ul style="list-style-type: none"> • Monetary policy committee and its functions | <ul style="list-style-type: none"> • Role of RBI in Control of Credit |
| <ul style="list-style-type: none"> • Government Budget and its components | <ul style="list-style-type: none"> • Trends in budgetary condition of India |
| <ul style="list-style-type: none"> • Exchange Rate determination- Methods and Techniques | <ul style="list-style-type: none"> • Currency War-reasons and repercussions |
| <ul style="list-style-type: none"> • Livestock- Backbone of Rural India | <ul style="list-style-type: none"> • Alternate fuel- types and importance |
| <ul style="list-style-type: none"> • Sarwa Siksha Abhiyan- cost Ratio benefits | <ul style="list-style-type: none"> • Golden Quadrilateral- Cost ratio benefit |
| <ul style="list-style-type: none"> • Minimum Support Price | <ul style="list-style-type: none"> • Relation between Stock Price Index and Economic Health of the Nation |
| <ul style="list-style-type: none"> • Waste Management in India- Need of the hour | <ul style="list-style-type: none"> • Minimum Wage rate – Approach and Application |
| <ul style="list-style-type: none"> • Digital India- Step towards the future | <ul style="list-style-type: none"> • Rain Water Harvesting – a solution to water crisis |
| <ul style="list-style-type: none"> • Vertical Farming- an alternate way | <ul style="list-style-type: none"> • Silk Route- Revival of the past |
| <ul style="list-style-type: none"> • Make in India- The way ahead | <ul style="list-style-type: none"> • Bumper Farming- Back to the nature |
| <ul style="list-style-type: none"> • Rise of the Concrete Jungle- Trend Analysis | <ul style="list-style-type: none"> • Organic Farming- Back to the Nature |
| <ul style="list-style-type: none"> • Any other newspaper article and its evaluation on the basis of economic principles | <ul style="list-style-type: none"> • Any other topic (specially related to own States/ regions/locality etc.) |
