

Extension activity 1

Lab visit by neighbouring schools and junior colleges

In an effort to popularize science among the school level students as well as to introduce them to science laboratory set up, a lab visit was organized on 24th February, 2022. Students of Akash Jr. College and Dawson H.S and M.P. School were invited for the purpose. In this visit, students were shown the chemistry general and physical laboratory, and various safety and precautionary measures adopted in a chemistry laboratory were discussed. Several instruments such as pH meter, conductivity meter, weighing balance, distillation plant, bomb calorimeter, UV-Visible spectrophotometer were also demonstrated by the teachers.
