Eco Spirituality: A New Dimension

(With reference to Sri Sankaradeva's Kirttan-ghosa)

Sanchita Bora

The same stream of life that runs through my veins night
and day runs through the world and dances in rhythmic
measures

It is the same life that shoots in joy through the dust of
the earth in numberless blades of grass and breaks into
tumultuous waves of leaves and flowers

It is the same life that is rocked in the ocean-cradle of
birth and of death, in ebb and in flow

I feel my limbs are made glorious by the touch of this
world of life

And my pride is from the life-throb of ages dancing in
my blood this moment

(Rabindranath Tagore, *Gitanjali*, LXIX)

Man is constantly in search of progress and stability.
